Offer & Request

A company with expertise in wood preservation with the authority to create official German certifica

A company with expertise in wood preservation with the authority to create official German certifica

We have expertise in wood preservation with the authority to create official German certificates of wood quality and restoration suggestions in case of infestation of wooden materials by insects and fungi, we also offer assistance at wood preservation.

We are looking for reliable partners interested in a upgrading of their business segment for a particular clients group by using our competence. We are interested particularly in contacts to planning offices, government authorities, estate agency, companies of the sector monument conservation, investors and companies involved in reconstruction af buildings.
