Bilateral Meetings

- Friday 21st September 10:15 - 12:30
- Friday 21st September 13:00 - 15:00

Description

We are a small carpentry with interest in cooperation in the single family home - market. We need workers and we offer training in German crafts in constant exchange. We can send our carpenters masters, as supervisors and trainers, everywhere to advance your construction sites. Our company manufactures houses from individual parts and assembles them as a set. We would like to sell these worldwide. It is possible to build these without our help, but we would also send a master with all the necessary machinery
