- Friday 21st September 10:15 - 12:30

Description

NAFIGATE Corporation a.s. is knowledge-based company operates in the nanofiber and bioplastic sectors conducting applied research and development of modern high technologies.

Organization Type

Company

Areas of Activities

Construction materials

Offer & Request

Nanofibrous air filtration - windows, doors (smog, dust, allergens, odour, bacteria)

Czech polymer nanofiber research company seeks distributor or manufacturer for their nanofiber coated mosquito nets. The net can filtrate air from smog, sand, pollen and other air borne pollution while keeping good air permeability and transparency of the window.
