Description

Construction company operating mainly in Germany, Holland and the Czech Republic. We have lots of experiences in renovating and building the agriculture building or industrial halls (installation the trapezoidal metal sheet on roofs, assembly of sandwich panels, plumbing) , installation of refrigeration and freezers for the food industry. We are also doing plasterboard, masonry, tiling and roofing work - we still search for quality and reliable subcontractors in these areas. We want to expand our portfolio of services on cooperation within the EU. Our other brand are recruitment services.
